

Slave Lake Pulp
2002 Public Involvement Plan

Forest Management Agreement 9000028

Currently under review by the Slave Lake Forest Public
Advisory Committee and the Land and Forest Division

Prepared by:

The Woodlands Staff
Alberta Plywood Ltd.
March 2002

Executive Summary

Slave Lake Pulp (SLP) takes a multi-faceted approach to including meaningful public input into the management of the FMA area. This plan outlines the approach that the Company will take to include the views and concerns of interested stakeholders and the general public in forest management activities.

Slave Lake Pulp actively searches out issues and concerns from a variety of stakeholders. The Slave Lake Forest Public Advisory Committee (SLFPAC) is one cornerstone of Slave Lake Pulp's public involvement process. This committee is a regional advisory group providing input into a variety of forestry issues arising from the operations of the area's four major wood product facilities. Information will also be gleaned from a number of additional sources including open houses, trade shows, interviews, personal contacts, questionnaires and stakeholder involvement in the Detailed Forest Management Plan (DFMP) process.

SLP appreciates the need for dissemination of information to the public regarding its activities on the landbase. The Company also has a responsibility to advance the knowledge and general understanding of the activities which occur on the FMA. To address this need, emphasis will continue to be placed in such mechanisms as open houses; SLFPAC; school tours; National Forest Week, the Lesser Slave Forest Education Society, local media announcements and presentations to First Nations and other concerned groups.

This plan will be reviewed annually and presented to the SLFPAC and Alberta Sustainable Resource Development for comments, recommendations and approval.

3. FMA Stakeholders List
4. Stakeholder Meeting Frequency

Introduction

On February 7, 2001 Slave Lake Pulp Corporation and the Province of Alberta amended the Company's Forest Management Agreement (FMA #9000028). The FMA defines a comprehensive set of responsibilities which the Company accepts in exchange for the right to manage the land area. Within the agreement the government of Alberta recognizes that the primary use of the FMA is for the purpose of growing and harvesting trees. However, the citizens of Alberta maintain ownership of the land. Consequently, the government may set standards and must approve all activities undertaken on the FMA.

The Company recognizes that the public must be aware of, and have the opportunity to review, activities planned for the FMA. In addition, the April 1998 version of the Interim Detailed Forest Management Planning Manual, developed by Alberta Sustainable Resource Development (SRD), recommends that meaningful public involvement be incorporated into the development and implementation of the DFMP. This document describes the approach that the Company will take to provide opportunities for obtaining input from the public regarding the management of the FMA.

Slave Lake Pulp commits to the development of practices and procedures that are consistent with the goals of sustainable and adaptive forest management of the FMA area. In addition, the Company recognizes that many other non-timber values exist and remains committed to mitigating the impacts of planning and operations on those values.

The Company will draw extensively from, and align many of its practices with, umbrella policies such as:

- *The National Forest Strategy*
- *The Alberta Forest Legacy document*
- *The Provincial Forest Act and provincial regulations*
- *The Canadian Council of Forest Ministers, Criteria and Indicators.*

The Company also intends to maintain certification under a number of standards of practice including Forest Care, ISO (International Standards Organization) and potentially CSA (Canadian Standards Association) or SFI (Sustainable Forestry Initiative).

Achievement of public acceptance for company forest management practices requires Slave Lake Pulp to be responsive to, and acknowledge, public input while providing the information necessary to allow for informed input. Slave Lake Pulp is committed to the incorporation of public values into forest planning and operations.

Slave Lake Pulp has developed both long and short-term goals within its public involvement strategy. In order to ensure that the public involvement plan is current and relevant the company will complete annual reviews of, and make revisions to, the process outlined in the document. It is our intent to carry out this review with the assistance of the SLFPAC and Alberta Sustainable Resource Development.

Goals and Objectives

Goal

The goal of the Public Involvement Plan is to develop a framework policy, which permits the solicitation of public review and meaningful input into the forest management practices on Slave Lake Pulp's FMA area.

Short Term Objectives

- *To incorporate public input into the planning process on the FMA area.*
- *To involve the public in a review of the Detailed Forest Management Plan (DFMP), scheduled for submission May 15, 2002.*
- *Identify issues from the general public and stakeholders related to the DFMP.*

Long Term Objectives

- *To commit to an ongoing evaluation of the Public Involvement Plan.*
- *To continue to effectively garner public input into SLP's forest management plans and activities.*
- *To reply to all concerns raised on SLP's management practices on the FMA area.*
- *To increase public knowledge and awareness of forestry practices.*

The Public Involvement Process

Technical Teams

The following is a list of the technical teams that are responsible for forest management planning and operations on the Slave Lake Pulp FMA. Input provided by the public, through our public meetings (SLFPAC, open houses, trade fairs...), will be addressed by these teams.

Detailed Forest Management Planning Team

Slave Lake Pulp has created a Detailed Forest Management Planning Team to develop the forest management strategies to be incorporated in the DFMP. This team has met monthly to provide input into the DFMP and has provided representation from a variety of stakeholder groups including:

- *Quota holders,*
- *Miscellaneous Timber Users (MTU - local loggers in S2 and S6)*
- *Alberta Sustainable Resource Development (ASRD) and its representative departments*
- *Slave Lake Forest Public Advisory Committee (SLFPAC)*
- *Local trappers.*

Upon completion of the management plan, this team will meet regularly (once or twice annually) to verify that the DFMP strategies are being implemented and to review any interim results available to evaluate the effectiveness of the strategies. Members of this team are also available to provide strategic direction and public representation into the following FMA working groups:

- *Fish and Wildlife Integrated Technical Committee (FWITC)*
- *Planning Working Group*
- *Silviculture Working Group*

Fish and Wildlife Integrated Technical Committee (FWITC)

The FWITC committee was originally created for the 1998 DFMP submission. It has become the technical advisory group responsible for the development, implementation and monitoring of strategies related to fish and wildlife on the FMA. The membership of the committee consists of representatives of Slave Lake Pulp, coniferous quota holders and the forestry, fish and wildlife divisions of SRD.

Planning Working Group

The Planning Working Group was created in 2002. The mandate of the group is to undertake all forestry planning operations required to implement the current DFMP. The team is responsible for the development, implementation and monitoring of the operational strategies described in the

DFMP. The membership of the committee consists of representatives of Slave Lake Pulp, each coniferous quota holder and the Land and Forest Division (LFD) of SRD.

Silviculture Working Group

The Silviculture Working Group was also created in 2002. The mandate of the group is to undertake all silvicultural operations required to implement the current DFMP. The team is responsible for the development, implementation and monitoring of the reforestation strategies described in the DFMP. The membership of the committee consists of representatives of Slave Lake Pulp, each coniferous quota holder and the Land and Forest Division (LFD) of SRD.

Public Involvement Sources

Slave Lake Forest Public Advisory Committee

Slave Lake Pulp envisions the primary avenue for public involvement to be the Slave Lake Forest Public Advisory Committee (SLFPAC). This committee was formed in January 1997. The following cross section of interest groups were asked to provide representation on the committee:

- *local community public members,*
- *small loggers,*
- *local trappers,*
- *SRD,*
- *native bands, and*
- *local forest industry representatives.*

The SLFPAC was established to:

- a) Provide organized and regular input into Slave Lake Pulp, Vanderwell Contractors (1971) Ltd., Weyerhaeuser Canada Ltd. and Alberta Plywood Ltd. (The Forest Companies) forest planning and operations.
- b) Identify community concerns and issues for consideration in forest resource management plans.
- c) Obtain constructive, regional input, advice and recommendations to ensure all local interests are effectively involved in forest resource management planning.
- d) Ensure effective ongoing communication on Forest Companies operating strategies between key stakeholders and forest companies operating in the region.
- e) Ensure forest resources are being managed in the best possible interests of present and future generations.
- f) Provide a forum for more public education and understanding of the socio-economics of the forest and maintains a library (located in the Slave Lake Public Library).
- g) Provide an opportunity for regional input and direction regarding economic stability while at the same time taking into consideration environmental, cultural and social issues affecting various aspects of forest management in the region.
- h) Give direction regarding broad public objectives pertaining to Forest Management. ex: Special Places

Slave Lake Pulp actively participates in the SLFPAC and regularly provides opportunity for public input from this avenue into the planning process. In addition, the DFMP, 5-year General Development Plans (GDP) and Annual Operating Plans (AOP) are presented to the SLFPAC for comment.

Alberta Sustainable Resource Development

Alberta Sustainable Resource Development and its departmental representatives are actively involved in the DFMP team and the FMA working groups. Through these avenues they ensure that public concerns are identified and addressed. In addition, the DFMP, GDP's and AOP's are submitted to SRD for input regarding any identified public issues or environmental concerns and for plan approval.

Open Houses and Trade Fairs

Slave Lake Pulp annually conducts a series of open houses throughout the region to solicit public input into its General Development Plan and Annual Operating Plan. These open houses visit such locations as Slave Lake, Kinuso, Swan Hills and neighboring First Nations communities to identify issues and concerns. All inquiries and concerns are addressed.

Lesser Slave Forest Education Society (LSFES)

Slave Lake Pulp has identified a need to educate the general public about forest practices on the FMA. The Company supports the Lesser Slave Forest Education Society financially, administratively and through active participation. A number of public involvement efforts are coordinated through this association including National Forest Week, school field trips and tours and youth projects centered around environmental learning.

National Forest Week

National Forest Week provides opportunity to actively seek public input into forest management in the Slave Lake region. The Company, in conjunction with other local forest industry companies, SRD, LSFES and educational institutions conduct a number of field tours, mill tours, information open houses and radio and newspaper articles to further the general understanding of forestry practices.

Field Trips and Tours

Through National Forest Week activities, LSFES events and SLFPAC issues, the company organizes and conducts field and mill tours to address concerns or issues related to forest management on the FMA.

Newspaper and Radio

The Company actively participates in radio and newspaper announcements, which relate to forest planning and operations on the FMA. Regular announcements concerning open houses, herbicide activities and log haul operations are completed. In addition, National Forest Week activities often require a concentrated and coordinated approach to public awareness of the forest industry within the media.

Trapper Referral

Trappers are contacted regarding any activity on their trapline area. These notifications are sent out at the preliminary planning stage. In addition, the company attempts to meet with all trappers to solicit their meaningful input into the harvest design and forestry operations. All trappers are further notified a minimum of ten days prior to commencement of operations.

Stakeholders List

Slave Lake Pulp maintains a comprehensive stakeholder list for the FMA. The stakeholder list is provided in Appendix 3.

Personal Contacts

Personal contact with the general public is an ongoing and continual feedback mechanism the company strives to maintain. Our professional field staff respond daily to numerous inquiries regarding the Company's operations. In addition, SLP distributes and solicits feedback during our open houses and trade fairs through questionnaires and interviews.

Community Leaders

The Company strives to contact leaders within the community to gauge their understanding and positions regarding forestry planning and operations. Forestry certification audits involve outside observers within the audit team to evaluate the objectivity of the procedures.

Issue Identification and Resolution

Slave Lake Pulp actively solicits all public input into its forest planning and operations. All identified issues are addressed promptly and through the proper channels. The issues are all screened through senior woodlands staff and replied to at the appropriate level within the company infrastructure. In the event that resolution is not imminent or possible, the issues will be forwarded to the appropriate government department for a resolution mechanism or ruling. The company intends to attempt to resolve all issues prior to involving any government department.

Information Request Response Policy

Slave Lake Pulp internal policy requires that all inquiries receive a prompt and professional response. These responses may be in the form of a meeting or a formal letter but all responses are documented and kept on file for future referral and reference.

Monitoring and Adaptive Management

Slave Lake Pulp will present this document to the Slave Lake Forest Public Advisory Committee for comments and recommendations and will annually review this document to determine if any changes are required. All modifications will be presented to the SLFPAC.

**Appendix 1 – Slave Lake Forest Public Advisory
Committee (SLFPAC) Terms of Reference**

(amended October 17, 2001)

1. Purpose

The Slave Lake Forest Public Advisory Committee (S.L.F.P.A.C.) is established to: (not in any particular order)

- a). Provide organized and regular input into Slave Lake Pulp, Vanderwell Contractors (1971) Ltd., Weyerhaeuser Canada Ltd. and Alberta Plywood Ltd. (The Forest Companies) forest planning and operations.
- b). Identify community concerns and issues for consideration in forest resource management plans.
- c). Obtain constructive, regional input, advice and recommendations to ensure all local interests are effectively involved in forest resource management planning.
- d). Ensure effective ongoing communication on Forest Companies operating strategies between key stakeholders and forest companies operating in the region.
- e). Ensure forest resources are being managed in the best possible interests of present and future generations.
- f). Provide a forum for more public education and understanding of the socio-economics of the forest and maintains a library (located in the Slave Lake Public Library).
- g). Provide an opportunity for regional input and direction regarding economic stability while at the same time taking into consideration environmental, cultural and social issues affecting various aspects of forest management in the region.
- h). Give direction regarding broad public objectives pertaining to Forest Management.
ex: Special Places

S.L.F.P.A.C. is established to select issues, consider and recommend actions and policies. The Forest Company(s) will formally respond to every recommendation raised with documented reason for acceptance, modification, or rejection.

2. Membership**Active Members (Voting)**

Active Members may also be selected by local organizations within the region to represent the views of those organizations or comment on S.L.F.P.A.C. Active members include representatives of organizations and/or individuals. S.L.F.P.A.C. will endeavor to ensure there is a balance of types of organizations represented.

ex: recreation groups

“Designated” Alternate Members (Voting)

“Designated” Alternate Members may be selected by local organizations within the region to attend meetings and represent the views of those organizations when the Active Member is unable to. “Designated” Alternates are given voting power when the Active Member is not in attendance. Active Members will brief their “Designated” Alternate on the issues and the Alternate would get the minutes.

Standing Members (Non-Voting)

Standing Members are representatives of The Forest Companies and the Land and Forest Service.

Ad Hoc Members (Non-Voting)

Citizens who are directly affected by those issues may establish ad Hoc committees from time to time to focus on specific issues and to allow greater community involvement. Ad Hoc committees are in place only for the duration of the issue and may be selected based on equitable representation.

Observer Status Members (Non-Voting)

Observer status may be granted from time to time on a case-by-case basis. Guidelines for observing will be established at the time of appointment. However, the chair has the authority to confer observer status to people who show up at the door for a meeting. Also the chair may ask for comment from observers at a meeting. Generally, however, observers are to only watch the S.L.F.P.A.C. or Ad Hoc meeting with no involvement in the process. The committee will have a written set of guidelines/protocol that the chairman will introduce to them before the meeting commences.

Other

Opportunity remains for the addition of new member to S.L.F.P.A.C., upon expression of interest and acceptance by other members of the Slave Lake Forest Public Advisory Committee. Designation of member status will be determined on a case-by-case basis.

3. Procedures and Issue Management

- A. S.L.F.P.A.C. will select and prioritize issues which could deal with any or all aspects of The Forest Companies forest planning and operations. A general time frame will be set for each issue before a new issue is selected and prioritized. The Forest Companies and Land and Forest Service may also present issues that they would like examined, provided that The Forest Companies first have consultation about the issue among themselves.
- B. S.L.F.P.A.C. will develop and implement its own action plan to address issues selected. The Forest Companies, Lands and Forest Service and/or other government departments will participate in the discussions to present their own viewpoints on issues. Other individuals or organizations can also be invited to present their viewpoints.
- C. Documented positions or recommendations, in writing, from S.L.F.P.A.C. will be presented to The Forest Company(s) and/or Land and Forest Service for response.

- D. Whenever companies involve a member of the public in their forest processes, the companies will consult with the PAC as to who represents the public. Whenever possible public participants will be endorsed by the PAC, and preferably be members of the PAC. Public participants will be asked to report to the PAC regarding their observations, actions, opinions, etc.
- E. The Forest Company(s) and/or Land and Forest Service will seriously consider the recommendations of the S.L.F.P.A.C., then discuss them with the group and respond in writing.
- F. All issues, positions and recommendations arising from S.L.F.P.A.C. will be documented and tracked, along with responses.

4. Facilitator Role (Issue Processes)

- A. Provide facilitation services for meetings.
- B. Provide an atmosphere conducive to a free and productive exchange of ideas and comments from members.
- C. Manage the meeting so that an orderly exchange of information occurs.
- D. Introduce quest speakers, facilitate question and answer sessions.
- E. Co-ordinate/assist Chair and Secretary in agenda preparation.
- F. Be aware of and support the PAC's Terms of Reference and purposes.
- G. Lead the group as desired through challenging and effective group interaction processes.

5. Chair Responsibilities (Business of the PAC)

- A. The Chair of S.L.F.P.A.C. will be selected for an appropriate time period and will be elected from within the active membership.
- B. The Chair is the official spokesperson for S.L.F.P.A.C., especially when dealing with the media.
- C. The Chair will control S.L.F.P.A.C. meetings, providing people the opportunity to speak and to be heard.
- D. The Chair has the authority to confer observer status to people who show up at the door for meeting, following written protocol. Also, at a meeting, the Chair may ask for comments from the observers. An "Issue" Chair may be appointed.
- E. The Chair has the authority to end discussion and evoke closure.
- F. In the event the Chair does not show up for a meeting, the Active Membership may elect a designated Chair for that meeting.
- G. The Chair has authority to appoint an Alternate Chair on any given issue
- H. The S.L.F.P.A.C. shall appoint an Alternate Chair

6. Secretary Responsibility

- A. Attend monthly meetings.
- B. Record and type minutes of monthly meetings.
- C. Make monthly agenda and distribute to PAC members
- D. Keep accurate records of all PAC administration files.
- E. Make phone calls, send e-mails, and mail letters to keep membership informed of all issues regarding PAC.
- F. Advertise monthly meetings with local newspapers and radio.
- G. Arrange for meeting rooms, refreshments and coordinate supper meetings.
- H. Coordinate logistics for field tours.
- I. Receive correspondence.
- J. Mail meeting minutes to High Level PAC and any other organizations that are interested in receiving information about PAC.
- K. Keep accurate records of the PAC budget.
- L. Update mailing lists.
- M. Assist facilitator with other miscellaneous jobs.

7. Member Responsibility

- A. S.L.F.P.A.C. members will strive to educate themselves on all aspects of the issues being discussed.
- B. Members will:
 - listen to and respect others opinions
 - try to understand others views
 - speak directly and respectfully
 - try to attend scheduled meetings
- C. Members will try to represent their own views, the views of the public, as well as those of the organization they represent on S.L.F.P.A.C., distinguishing between each.
- D. If a member misses two meetings in a row, without due cause, the group they represent may be asked either to reconsider its membership, or to replace the member with someone more able to participate. A member at large may be replaced by open invitation, with the approval of the group.
- E. If a member is unable to attend a S.L.F.P.A.C. meeting, that person should attempt to inform the Chair of their absence and if unable to do that, then notify the Administrative Designate.

- F. Members will attempt to go back to their organizations to acquaint them with the background and issues being discussed and to gather their opinions from this informed perspective.
- G. Members will keep their organizations up to date on the progress and documentation of the issues being discussed, along with the responses from The Forest Company(s) and Land and Forest Service.
- H. Members will deliver on assignments they accept.

8. Norms/Ground Rules for Conducting Meetings

- A. Members will show up on time.
- B. Meetings (3rd Wednesday of the month) will start at 7:00 p.m. and finish at 9:00 p.m., on time. Meetings will start in September and end in June.
- C. Decisions will be developed by consensus building techniques, voting only as a last resort. Consensus does not mean that you have to be in 100% agreement with the decision, but that you can live with the decision. When voting is necessary a 60% majority is needed. Members may abstain.
- D. Minutes, submissions and correspondence will be taken and distributed to members. This distribution may be by e-mail, fax or regular post.
- E. Action commitments will be identified in the minutes and tracked.
- F. At the end of each meeting, the agenda for the next meeting will be set. The agenda may be modified at the beginning of the meeting.
- G. A quorum of 4 active members is needed.
- H. The flow of the minutes will not be verbatim, but rather follow a general discussion, recommendations, indicators, and action steps.
- I. The next meeting agenda will be sent with the previous meetings minutes.
- J. The Forest Companies and Lands and Forest Service will give a brief update on their operations.

9. Other Information

- A. S.L.F.P.A.C. members will not receive money for regular or Ad Hoc meetings. However, The Forest Companies may reimburse members per kilometers traveled to and from meetings.
- B. With prior approval by The Forest Companies, members may receive money for out-of-pocket expenses, travel, lodging, meals, etc. for S.L.F.P.A.C. supported conferences, workshops, tours, etc.

10. Changes to the Terms of Reference

- A. The Terms of Reference will be reviewed at least once a year in September.

DRAFT

**Slave Lake Pulp Corporation
2002 Public Involvement Plan**

B. By agreement amongst S.L.F.P.A.C. members, the Terms of Reference may be amended, deleted, added to or changed at any time.

Appendix 2 – Public Issues and Concerns**Slave Lake Forest Public Advisory Committee**

- *Sustainable forest development*
- *Allocation of the forest resource*
- *Special Places 2000*
- *Multiple use of the forest*
- *Ecological diversity*
- *Reforestation*
- *Logging trucks on the road*
- *Herbicides*
- *Harvesting methods*
- *Public input into forest planning*
- *Relationship between forestry and oil and gas*

Trappers

- *Notification and involvement in harvest planning.*
- *Trapper compensation.*
- *Maintenance of traditional access.*

Slave Lake (S6) MTU

- *Wood supply shortfall due to the 1998 fires*

Lakeshore Lumberman's Association (S2 MTU)

- *Maintenance of existing MTU boundary*
- *Open to the evaluation of a single landbase concept for possible inclusion into this DFMP*

Other issues:

- *Identification and protection of heritage sites;*
- *Klondike Trail.*

Appendix 4 - Stakeholder Meeting Frequency

The following table contains a listing of the proposed meeting frequency for the identified stakeholder groups. Slave Lake Pulp will ensure that representatives are present to provide information to the group and answer any questions that may arise regarding the management of the FMA. As additional stakeholder groups are identified, they will be added to the list if necessary or if requested.

Stakeholder Group	Meeting Frequency
SLFPAC	8-9 times annually (monthly when SLFPAC meets)
Slave Lake (S6) MTU	Once annually
Lakeshore Lumberman's Association (S2 MTU)	Once annually
Slave Lake Community Open House	Once annually
Swan Hills Community Open House	Once annually
South Shore Communities Open House	Once annually
Alberta Trapper's Association Locals ¹	Once biannually, or when requested
Big Lake Country Tourism	Once biannually
Slave Lake Chamber of Commerce	Once biannually
Slave Lake Town Council	Once biannually
Lesser Slave River Municipal District	Once biannually
Big Lakes Municipal District	Once biannually
Service Clubs	When requested

¹ Individual trappers will be contacted annually if forest harvest plans occur on their trapline.
